SUMMARY

Third-year Software Engineering undergraduate at the University of Kelaniya with full-stack expertise in Java Spring Boot, the MERN stack, and microservices architecture. Proven track record of architecting secure e-commerce platforms and AI-powered distributed systems using Generative AI, RAG, and LangChain. Eager to leverage strong technical foundations to deliver scalable, high-performance, and intelligent software solutions.

EDUCATION

B.Sc. (Hons.) Software Engineering April 2024-Present

University of Kelaniya CGPA: 3.61

- Specializing in Net-Centric Applications, Data Science and Engineering Applications, Health Informatic Applications domains.

G.C.E. Advanced Level

Telijjawila Central College Physical Science Stream (z-score: 1.5045)

SKILLS

Languages	Java, Python, JavaScript, TypeScript, PHP, C, HTML, CSS, SQL
Frontend	React.js, Next.js, Redux Toolkit, Tailwind CSS
Backend	Node.js, Express.js, Spring Boot, FastAPI, REST APIs
Databases	PostgreSQL, MongoDB, MySQL
AI & Data	Generative AI, LangChain, RAG Architecture, HuggingFace, Gemini API, Prompt Engineering
Tools & Platforms	Git, GitHub, Docker, Postman, Vercel, Power BI

PROJECTS

ELIX - Clothing-Store MAR 2026 - MAY 2026

Individual LIVE SITE - GITHUB REPO

- Developed a full-stack e-commerce platform using the **MERN stack (MongoDB, Express.js, React, Node.js)** for dynamic product catalogs and order processing.
- Secured backend API endpoints and session management with **JWT (JSON Web Tokens)** for user authentication and authorization.
- Integrated **Cloudinary API** for media management and optimized product image delivery.
- Managed global state for cart data and user authentication using **Redux Toolkit** for a responsive shopping experience.

Luméra - Salon Management System Ongoing

Individual GITHUB REPO

- Built an enterprise microservices platform using **Java Spring Boot, Python FastAPI, React.js, Spring Cloud API Gateway, PostgreSQL, RabbitMQ, and Docker Compose.**
- Developed an autonomous conversational AI receptionist using **LangChain, Google Gemini API, and LLM Function Calling** for automated salon bookings and schedule management.
- Deployed a production-grade **ChromaDB** and **Hugging Face Sentence-Transformers RAG pipeline** for hallucination-free, contextual recommendations.
- Secured decoupled microservices via **JWT / RBAC, Spring Security**, and strict **Pydantic & Java DTO** schema validations.

PlayNex - Microservices MAY 2026 - JULY 2026

Individual GITHUB REPO

- Built a scalable gaming platform backend using **microservices** with **Node.js** and **Express.js** for user management and authentication.
- Integrated backend **RESTful APIs** with a responsive, dynamic **React.js** frontend to ensure an interactive user experience.
- Designed robust data handling workflows using **MongoDB** to support high availability and secure user data management.
- Configured **inter-service communication** and **centralized error handling** to ensure fault tolerance across the distributed backend architecture.

Book Fair Reservation System FEB 2026 - MAR 2026

Academic - Group GITHUB REPO

- Engineered a full-stack stall reservation system for the Colombo International Book Fair using **Spring Boot** and **React (TypeScript)** to streamline vendor bookings.
- Implemented secure **JWT-based authentication** to manage user sessions and protect endpoints.
- Developed an **automated EmailService** workflow dispatching **real-time booking** confirmations and **QR code tickets** to vendors.
- Built an intuitive frontend vendor interface optimizing **state management** and **API integration** for a seamless booking workflow.

CERTIFICATES

- Introduction to Cloud 101 - AWS Educate
- Getting Started to Storage - AWS Educate

ACHIEVEMENTS

- Participated, Junior Hack hackathon (Software Engineering Students' Association UOK)

VOLUNTEERING

- Software Engineering Students' Association - Head Of Media Management — May 2026-Present
- Software Engineering Students' Association - Committee member — April 2025 - May 2026
- IEEEXtreme 19.0/KelaniXtreme 1.0 - Program Management Team — Sep 2025 - Oct 2025

LANGUAGES

- English (Professional Proficiency)
- Sinhala (Native)
